

SPIRIT 4

BOOKING CODE: 4BM

CAPACITY: 4 ADULTS

FORD

DRIVING

Pax Capacity: 4 Adults

Seating Configuration: Seatbelts for two in the driving cab and seatbelts for two in the living area.

Baby/Booster Seat Fitting: 2 seats can be fitted on rear seats facing forward. Baby/Booster Seats have to be pre-booked, otherwise cannot be guaranteed. Please advise age and weight of child on booking.

Radio/CD: Speakers in driving cab and living area.

Cigarette Lighter: 12V, which is suitable to charge up video camera batteries.

Fuel: Diesel only. 68 litre tank.

Fuel Consumption: Approximately 11 litres per 100km. This may vary subject to the use of air-conditioning, temperature and terrain.

Engine Specifications: 2.4 litre diesel.

Transmission: Automatic

Power Equipment: Power steering, power assisted brakes.

Tyres: Front and back tyre pressure should be checked regularly: 60/60 psi.

Spare Tyre: The spare tyre is located under the rear of the vehicle. External access only.

Tools: Tool kit is under the driver's side footwell.

LIVING

Sleeping Configuration: One double bed in roof canopy 2.10m x 1.26m, and one double bed in rear of cabin 2.10 x 1.22m.

Fridge Freezer: The fridge operates on 12V whilst driving and switches to 240V mains when plugged in at a campground. Fridge capacity, 60 litre.

Gas Cooker: 2 ring cooker with griller, ignited by match.

Gas Bottle: A 9kg gas bottle. The gas bottle is located in the external storage locker on the drivers side of the vehicle. Bottle has an 'ON/OFF' tap on it. Please ensure it is in 'OFF' position when not in use and when driving.

Microwave: The microwave operates from 240V only, so the vehicle must be plugged into mains power at a campground.

Bathroom Facilities: Hot and cold pressurised water in shower cubicle with separate hand basin and amenity cabinet.

Toilet: Located in cubicle with shower. Flushed toilet waste goes into cassette holding tank, which is accessed, from exterior compartment door. One supply of toilet chemicals is provided per week of rental. Toilet cassette holding tank must be flushed out and empty on drop-off.

Water Heater: Water heater works on gas and is operated by a switch. Water will be heated after approximately 15 minutes.

Fresh Water Tank: Capacity is 95 litres. The filler cap is located on the passenger side of the vehicle and marked "WATER" and the filler hose is in the wardrobe.

Grey Water Tank: Holding tank for grey waste water generated from the shower and kitchen sink. Disposable at all campgrounds and dump

sites. Holds 85 litres grey water. Grey water hose is in the driver's side exterior compartment.

Lighting: Interior lights operate on both 12V batteries and 240V mains supply.

Air-conditioning/Heating: Driver's cab air-conditioning/heating operates whilst driving. The rear cabin heating operates on 240V when plugged in at a campground.

Power Supply: 240V mains and 12V battery. The 240V mains power operates when the exterior power cable is plugged in at a campground. There are two 12V batteries, one for starting the engine, and the other for domestic 12V system. This system operates the water pump and fridge. Batteries are recharged by engine alternator and 240V system.

Storage: Ample cupboard space, storage under seats at rear of vehicle and hanging wardrobe.

Skylights: Two in the rear of the living area and one in the shower. Ensure this is closed when driving.

Fly Screens: Fitted to all opening windows in the living area and also the living area door.

Flooring: Easy to care for linoleum.

Internal Access: Internal access between driver's cab and living area.

Exterior Access: Side door.

DAY LAYOUT

During the day there's plenty of space to move around, and a great view from your own dining room.

NIGHT LAYOUT

At night two double beds allow four people to sleep in comfort.
